

# CHILDREN in the CLIMATE CRISIS

## How to teach climate change?

### Planning Competition

For the Erasmus+ project **Children in the Climate Crisis** we are searching for plannings of activities or lessons about climate change at educational institutions. That's where you come in: Be creative! Create a planning regarding climate change. In return **you will receive a book containing all sent in plannings!**

**Prizes:** 1st place: participation at the project meeting in Gdańsk  
2nd place: picture stories and theaters about climate change  
3rd place: a CO2 Sensor

Send the filled planning form available at our website with a short text about your planning to:

**cicli@uni-bonn.de**

We look forward to receiving your ideas by **15.03.2025!**

Every CO2-Stripe represents one month.  
Purple colors stand for lower CO2 concentrations,  
orange colors are for higher CO2 concentrations.  
The leftmost stripe stands for January 2004, the rightmost for June 2023

**Erasmus+**  
Enriching lives, opening minds.
