

# CLIMATE PROJECT - PLANNING SHEET

**Title:** Climate Box Contest

**Author:** Aleksandra P., Maria B., Marta N.

**Age:** 6-14

**Content:**

The Climate-Box Competition is an event for children aged 6 to 14 years that aims to promote awareness and knowledge about climate change. It emphasises the importance of educating and actively involving children in building environmental awareness and implementing appropriate measures. The competition is divided into two age groups: one for younger children (6-9 years) and one for older children (10-14 years). Prizes are sponsored by an environmentally friendly company that makes beautiful items such as bags, backpacks and bum bags from recycled advertising banners. For more information, visit [www.ho-lo.pl](http://www.ho-lo.pl).

Climate change, as presented and edited in the boxes, refers to long-term changes in global or regional climate patterns, particularly the warming observed since the 20th century. This warming is caused mainly by the increase in greenhouse gas emissions resulting from human activities such as industry, agriculture and deforestation. The consequences of climate change are manifold and include more extreme weather conditions, rising sea levels and the threat to ecosystems and habitats.

**Development goals:**

**Skills developed through this competition:**

Increased understanding of the greenhouse effect, climate change, and society's impact on the environment. Older students can also learn how to research climate-related topics by encouraging them to engage with scientific data and articles. Creativity, teamwork, and communication are also encouraged.

**Planning:**

1. Establish the goals of the competition
2. Determine the duration and age group allocation
3. Develop clear guidelines for participation
4. Determine an exact topic or narrower topic areas
5. Appoint prizes
6. Provide participants with access to research material (articles, videos, interactive tools) on the topic of climate change
7. Set a deadline
8. Notify winners and participants via email and/or social media

**Resources:**

- Info stations
- Paper
- Pens
- Superhero templates
- Ice cream and/or lollipop sticks
- Stickers Action sheets: worksheets with tasks, puzzles and quizzes

Video resources: documentaries, tutorials, or interviews with experts to deepen participants' understanding of climate change

Prizes: vouchers, educational packages, books, or environmentally friendly products such as loot or backpacks made from recycled advertising banners from the company HO::LO: [www.ho-lo.pl](http://www.ho-lo.pl)

**Feedback:**

Maintaining the active and ongoing participation of children is a tricky matter that requires interesting strategies to keep their attention, interest and motivation over the entire duration of the competition.
